

# Take a Stroll Down “Our Path to Prosperity”

Church Street

HUNTSVILLE

WATER TRAIL

**Introducing the .....**

**HUNTSVILLE**

**WATER TRAIL**

**The spring in Big Spring Park played a significant role in the settlement and growth of Huntsville and the state of Alabama. The spring was the original water source for John Hunt and the settlers in the early 1800's. Big Spring Canal became the main transportation route for the settlers and their agricultural products.**

**In November we salute the history of our water system with installation of the "Huntsville Water Trail" also known as Huntsville's Path to Prosperity. Visiting eight markers in Big Spring Park East, you will learn about the evolution of Huntsville's water system and the community.**

**Please Join Us For a Stroll Down "Our Path to Prosperity"**
