Alabama  **Call**

**Know what's below.
Call before you dig.**

NOTICE

TO ALL EXCAVATORS, COMMERCIAL AND RESIDENTIAL PROPERTY OWNERS, ETC.

Before excavating, contact Alabama One Call

811 (or 1-800-292-8525)

**Please provide at least 48 hours prior notification
during normal business week.**

Safe operation of underground utilities is a top priority for Huntsville Utilities. Safety takes all of us working together, pipeline operators, contractors, landowners, and neighbors. When digging excavating, drilling or moving the earth in any way that could damage underground utility facilities, contact **Alabama One Call by dialing 811** (or call 1-800-292-8525), no less than 2 days before starting the excavation. Note that this is a free service provided to the public. Huntsville Utilities will verify if our underground utilities (Natural Gas, Electric, or Water) exist in area. If they exist, Huntsville Utilities will mark the location of their facilities in that area.

Your cooperation and participation in this program will help prevent damage to underground utilities, injury or even death. Damage to underground utilities by excavators without prior notice of intent to excavate will result in payment by the excavator for cost to correct and/or replace damaged facilities.

Dig Safely!
