Report on Internal Control and Compliance Matters	
Independent Auditor's Report on Internal Control Over Financial Reporting and On Complian Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Governi Standards</i>	

#### INDEPENDENT AUDITOR'S REPORT

The Board of Directors City of Huntsville Electric, Natural Gas, and Water Systems Huntsville, Alabama

#### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the accompanying financial statements of the business-type and fiduciary activities of the City of Huntsville Electric, Natural Gas, and Water Systems (the "Utilities"), component units of the City of Huntsville, Alabama, as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the Utilities basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type and fiduciary activities of the Utilities as of September 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Utilities and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2023, the Utilities adopted new accounting guidance related to subscription-based information technology arrangements. Our audit opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Utilities ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Utilities internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Utilities ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 13, the schedule of changes in the net pension liability on pages 76 through 78, the schedule of employer pension contributions on pages 79 through 81, the schedule of changes in the net OPEB liability on pages 82 through 84, and the schedule of employer OPEB contributions on pages 85 through 86 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Information**

Management is responsible for the other information. The other information comprises the statistical highlights on pages 87 through 92 and operating information on pages 93 through 100, but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

Mauldin & Jerkins, LLC

In accordance with *Government Auditing Standards*, we have also issued our report dated April 18, 2024, on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

Huntsville, AL April 18, 2024

As of and for the year ending September 30, 2023

The following Management Discussion and Analysis (MD&A) for Huntsville Utilities (Utilities) is intended as an introduction and should be read in conjunction with the financial statements and the notes that follow this section.

#### **System Highlights**

Huntsville Utilities Water Department celebrated its 200<sup>th</sup> year in operation and received the following 2023 Best Operated Plant/Distribution Award from the Alabama Water Pollution Control Association (AWPCA)

- 1. Best Operated Surface Water Plant 20.1-30 MG Southeast
- 2. Best Operated Groundwater Plant > 100,000 Lincoln Dallas WTP
- 3. Best Operated Distribution System 50,001-100,000 Meters Huntsville Utilities

The Water Department undertook a 20-year master plan to identify the needs and steps to prepare for the continued growth in the region. In addition, the Water Department continued rehabilitations on the South Parkway Water Treatment Plant, first constructed in the 1960's, all for extending the useful life of the plant. Improvements are being made to the infrastructure for the water treatment process, renovations of the operator area and laboratory space, and updates to the latest computer architecture, hardware and software for operating controls.

Huntsville Utilities Electric Department attained the Diamond Status Reliable Public Power Provider (RP3) designation from American Public Power Association. The Electric Department Rodeo Team placed 1st at the International Lineman's Rodeo Municipal Division and 12<sup>th</sup> overall out of 292 teams. Huntsville Utilities Electric Department responded to two requests for mutual aid this year following storm events impacting Northern Alabama public utilities.

In 2023, the AGPA Gold Status Systems Operational Achievement Recognition Award was earned by the Gas Department.

Huntsville Utilities issued its first ever Community Responsibility Report, received the Government Finance Officers Association Budget Award for the third year running, took 2<sup>nd</sup> place in the American Public Power Association Safety Award of Excellence, and obtained the first ever state level approved Fiber Apprentice program.

Huntsville Utilities continued to see customer growth in all three departments in FY23:

As of and for the year ending September 30, 2023

		2023	2022	Growth %
Electric				
	Residential	191,235	184,972	3.39%
	Commercial	24,196	23,732	1.96%
Gas				
	Residential	56,667	55,276	2.52%
	Commercial	5,988	5,907	1.37%
Water				
	Residential	94,762	94,006	0.80%
	Commercial	11,363	11,200	1.46%

The electric department grew by 6,727 customers over prior year. The residential customer count increased 3.39% or 6,263 customers and commercial customer count increased by 464 or 1.96%.

The gas department grew by 1,472 customers during the twelve months ended September 30, 2023. Residential customers increased by 1,391 or 2.52%, while commercial customers increased by 81 or 1.37%

The water department experienced customer count growth of 919 over the prior year. Residential customer count increased by 756 or 0.8% and commercial customer count increased by 163 or 1.46%.

#### **Overview of the Financial Statements**

The Utilities' financial statements are comprised of the Statements of Net Position; the Statements of Revenues; Expenses and Changes in Net Position; the Statements of Cash Flow; and the accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

The Statement of Net Position reports the assets and deferred outflows of resources, less liabilities, and deferred inflows of resources, with the difference being net position. Net position will be displayed in three components: net investment in capital assets, restricted, and unrestricted. Over time, increases or decreases in net position may serve as an indicator of whether the financial position is improving or declining. The Statements of Revenues, Expenses and Changes in Net Position show how net position changed during each year based on revenues and expenses. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. The Statements of Cash Flows report changes in cash and cash equivalents summarized by net changes from operating, capital, related financing, and investing activities. The notes provide additional detailed information to support the financial statements. The report also includes Statistical Highlights. These highlights convey significant data that affords the readers a better historical perspective and assists in assessing the current financial status and trends of the Utilities.

The Utilities is a Component Unit of the City of Huntsville, Alabama. The Utilities' statements are provided to the City of Huntsville and reformatted to conform to the City's format for Component Units. The City of Huntsville incorporates the Utilities' statements ending September 30 into its statements ending September 30.

By City Ordinance, the Utility is required to account separately for its electric, natural gas and water systems. Costs are allocated to the three systems in a manner that ensures results of operations and changes in financial position are presented fairly and consistently from year to year.

#### **2023** *Compared to 2022:*

As of September 30, 2023, the Electric System's total assets were \$799 million, an increase of 5.7%, compared to September 30, 2022. As of September 30, 2023, the Electric System's liabilities were \$244 million, an increase of 2.9% compared to September 30, 2022. As of September 30, 2023, the Electric System's net position was \$414 million, an increase of \$42 million or 11.3%, compared to September 30, 2022. This increase is due primarily to increase in Utility Plant assets and retirement and pension liability obligations. Improved cash and investment balances were the result of credits from the TVA long-term partnership agreement and pandemic relief credit, which ended 09/30/2023, as well as cash received from the Inter-governmental Services Agreement with Redstone Arsenal (IGSA).

Beginning net position	371,653	315,353
Ending net position	\$ 413,595	\$ 371,653

#### **2023** Compared to **2022**:

As of September 30, 2023, the Electric System's total revenues were \$609 million, a decrease of 1.8%, compared to September 30, 2022. This decrease includes a 2.89% decrease in consumption from prior year, due to an exceptionally mild winter pattern in 2023. The decrease sales revenues from lower consumption was partially offset by fuel cost and the implementation of step 5 of a 5-year planned increase in rates in October 2023. The increase in non-operating revenues of 85.9% is due primarily to interest income on leases.

The Electric System's operating expenses were \$523 million, a 1.0% increase from the previous year primarily resulting from higher purchased commodity and distribution expenses.

#### **2023** Compared to **2022**:

As of September 30, 2023, the Gas System's total assets were \$221 million, an increase of 5.8%, compared to September 30, 2022. This is primarily due to an increase in capital assets of 4.7%. As of September 30, 2023, the Gas System's total liabilities were \$77 million, an increase of 22.9%, compared to September 30, 2022, due to retirement and pension liability obligations. As of September 30, 2023, the Gas System's net position is \$142 million, an increase of 3.1%, compared to September 30, 2022. This is primarily due an increase in capital assets through expansion of the system with new customer connections.

#### **2023** Compared to 2022:

As of September 30, 2023, the Gas System's total revenues were \$66 million, an increase of 4.9%, compared to September 30, 2022. This is primarily due to an increase in commercial and industrial revenue and revenues from IGSA. As of September 30, 2023, the Gas System's expenses were \$59 million, up 10.5% compared to September 30, 2022, due to distribution cost increase and administrative & general.

#### **2023** Compared to **2022**:

As of September 30, 2023, the Water System's total assets were \$421 million, an increase of 3.0%, compared to September 30, 2022. The increase is a result of a 5.1% increase in capital assets. As of September 30, 2023, the Water System's total liabilities were \$165 million, an increase of 3.4%, compared to September 30, 2022. This increase relates to an increase in long term liabilities for improvements in treatment plants and distribution improvements in serving the Limestone County area. As of September 30, 2023, the Water System's net position is \$254 million, an increase of 3.6%, compared to September 30, 2022.

As of and for the year ending September 30, 2023

Ending net position	\$	253,961	\$	245,038

#### 2023 Compared to 2022:

As of September 30, 2023, the Water System's total revenues were \$60 million, an increase of 7.5%, compared to September 30, 2022. Included in this increase is a 4.8% increase in gallons sold, increased commercial sales, increase in number of customers, and other operating income increasing from IGSA revenue. As of September 30, 2023, the Water System's expenses were \$54 million. An increase of 9.7% compared to September 30, 2022, due to an increase in costs in purification, distribution, and administration expenses.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies

The financial statements of the City of Huntsville Electric, Natural Gas, and Water Systems (the "Utilities" or "HU") have been prepared in accordance with generally accepted accounting principles of the United States of America ("GAAP") as applied to government units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Utilities' accounting principles are described below.

#### **Reporting Entity**

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary Government is financially accountable for agencies that make up its legal entity. It is also financially accountable for a legally separate agency if its officials appoint a voting majority of that agency's governing body and either it is able to impose its will on that agency or there is a potential for the agency to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. There are no component units which should be included as part of the financial reporting entity of the Utilities. However, the Utilities are a component unit of the City of Huntsville, Alabama.

The fiduciary net position of the Utilities OPEB Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from the OPEB Plan's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Financial Presentation**

The Utilities are operated by separate Boards for the electric, natural gas, and water systems (collectively, the "Boards"). The Boards are responsible for the day-to-day operations of the Utilities and for making recommendations to the City for major capital outlays and rate revisions. The Electric Board consists of three members appointed by the Huntsville City Council for staggered three year terms. The Natural Gas and Water Boards are made up of the same three members who serve on each Board, simultaneously. The Boards have hired a President and CEO to administer all three utilities. Financial statements are presented for each Board. The footnotes are presented separately for each Board, where applicable, and jointly for areas where common descriptions exist.

#### **Basis of Accounting**

The Utilities use the accrual basis of accounting under which revenues are recognized when earned and expenses are recognized when incurred, even though actual payment or receipt may not occur until after the period ends.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Basis of Accounting (Continued)**

The financial statements of the Utilities have been prepared in accordance with generally accepted accounting principles of the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Utilities' accounting principles are described below.

#### **Cash and Cash Equivalents**

For purposes of the Statements of Cash Flows, the Utilities consider all highly liquid temporary cash investments with low interest rate risk to be cash equivalents. Cash purchases and sales of these investments generally are part of the entity's cash management activities rather than part of its operating, investing and financing activities, and details of these transactions are not reported in the Statements of Cash Flows. Restricted funds are provided for under trust indentures and are not considered cash equivalents. All restricted funds are considered investments for purposes of classification in the Statements of Cash Flows.

The Boards have designated that cash assets be set aside in each System to fund construction and renewal and replacement activity. The designations are segregated in the Statements of Net Position as Board Designated Funds. Designations are relieved once the Board has approved expenditures from those funds. The designated balances are fully funded and are not separately stated in net position at September 30, 2023.

#### **Investments**

Investments in U.S. Treasury, government agency, and state and local government securities are recorded at fair value, as determined by quoted market prices. Investments in overnight repurchase agreements and commercial paper are recorded at cost, which approximates fair value.

#### **Accounts Receivable - Trade**

Accounts receivable consist of amounts due from customers primarily for electric, natural gas, and water charges. The Electric and Water Systems act as billing and collection agents for other City of Huntsville, City of Madison, and Madison County utility departments. Current earnings are charged with an allowance for doubtful accounts based on age of account. Receivables are due 15 days after the issuance of the invoice and are considered delinquent when more than 18 days past due. Accounts considered uncollectible throughout the year are charged against the allowance. The allowance for doubtful accounts at September 30, 2023 was:

	Electric	Gas	١	Water
Accounts receivable - trade	\$ 42,989,907	\$ 2,909,406	\$	6,981,535
Unbilled utility receivable	16,445,567	809,579		1,495,630
Allowance for doubtful accounts	 (344,279)	(195,171)		-
Total accounts receivable – trade, net	\$ 59,091,195	\$ 3,523,814	\$	8,477,165

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### Leases

The Utilities is a lessor for noncancellable leases of buildings, equipment, and infrastructure. At the commencement of a lease, the Utilities initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments related to leases include how the Utilities determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The Utilities uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Utilities generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option prices that the Utilities is reasonably certain to exercise. The Utilities monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

#### **Right-to-Use-Assets**

The Utilities determines whether an arrangement is a right-to-use-asset at inception. The Utilities has one type of right-to-use-asset: subscription-based information technology arrangements (SBITAs). These arrangements are included in other assets (net of accumulated amortization) and subscription liabilities on the Statements of Net Position. Right-to-use-assets represent the Utilities right to use an underlying asset for the agreement term and the related liabilities represent the obligation to make payments arising from the right-to-use-assets. Right-to-use-assets and related liabilities are recognized at commencement date based on the present value of right-to-use-asset payments over the term of use. As most of the Utilities agreements do not provide an implicit rate, an incremental borrowing rate based on the information available at the commencement date is used in determining the present value of payments. The right-to-use-asset also includes any payments made and excludes incentives. Right-to-use-asset terms may include options to extend of terminate the agreement when it is reasonably certain that those options will be exercised. The Utilities maintain a \$5,000 capitalization threshold for SBITAs. SBITA amortization is computed using the straight-line method over the length of the contract term.

#### **Materials and Supplies Inventories**

Materials and supplies inventories are stated at the lower of cost (average cost) or market using the first-in, first out consumption method of inventory accounting. The stored inventory is reflected at the aggregate amount of the lower of cost (average cost) or market.

#### **Fuel Management Program**

In connection with the purchase of natural gas, the Natural Gas System has developed and implemented a procurement program intended to manage the risk of changes in the marketplace of natural gas. Pursuant to this program, the Utilities may execute fixed price and options contracts from time to time to help manage fluctuations in the market prices of natural gas.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Utility Plant**

The Utilities maintain a \$5,000 capitalization threshold for equipment, land, buildings, and improvements. Utility plant and construction in progress are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful life of the assets ranging from three to 55 years. Retirements of units of property from service are credited against plant in service at the original cost of the units and accumulated depreciation is debited at the date of retirement. Improvements that extend the useful life of the assets are capitalized and depreciated over the remaining useful life of the asset. The cost of maintenance, repairs, and replacement of minor items of property are charged to operations and maintenance accounts.

#### **Regulatory Accounting**

Regulatory accounting allows a regulated utility to defer a cost (a regulatory asset) or recognize an obligation (a regulatory liability) if it is probable that through the rate making process, there will be a corresponding increase or decrease in future revenues. Accordingly, Huntsville Utilities has recognized certain regulatory assets in the accompanying Statements of Net Position. In the event Huntsville Utilities no longer meets the criteria for regulated operations under GASB Statement No. 62, Huntsville Utilities would be required to recognize the effects of any regulatory change in assets or liabilities in its Statements of Revenues, Expenses, and Changes in Net Position. The following are the regulatory assets included in the Statements of Net Position:

		Electric	Gas	S	Water
	9	System	Syste	m	System
Regulatory assets:					
Non-current:					
Unamortized debt expense	\$	312,582	\$	-	\$ 487,032

#### Accounts Receivable/Payable from/to Other Utilities

Included in other receivables are amounts due from the other utility systems for services rendered to them by the Utilities. Included in the payable is cash held by the Utilities for the amounts owed to the City of Huntsville and other utilities for services rendered by them to the Utilities.

#### **Recognition of Revenues**

Revenues are recognized from meters read on a daily basis. Service that has been rendered from the latest date of each meter-reading cycle to month end is estimated and accrued as unbilled revenue receivable.

#### **Operating Revenues and Expenses**

The Utilities consider all revenues and expenses associated with utility sales to be operating revenues and expenses. Any revenues or expenses not meeting this definition are considered to be nonoperating revenues or expenses.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Grants in Aid to Construction**

It is the Electric System's policy not to record amounts as grants in aid of construction, in accordance with guidelines established by FERC. The substance of this accounting treatment is to reduce the cost of operating the Electric System by reducing depreciation expense.

It is the Water and Natural Gas System's policy to record grants in aid of construction and other amounts received as capital contributions in the Statements of Revenues, Expenses, and Changes in Net Position.

#### **Amortization**

Amortization of bond discounts and premiums is computed on the effective interest method. Amortization of regulatory assets is computed on a straight-line basis over the expected recovery of such costs in future rates, estimated to be 20 years. SBITA amortization is computed using the straight-line method over the length of the contract term.

#### **Estimates**

The preparation of financial statements in conformity with GAAP requires management to make various estimates. Actual results could differ from those estimates. Estimates that are particularly susceptible to significant change in the near term are related to the allowance for doubtful accounts, net pension liability, net OPEB liability.

#### **Environmental Costs**

Huntsville Utilities expenses, on a current basis, certain known costs incurred in complying with environmental regulations and conducting remediation activities.

#### **Pensions**

The Employees' Retirement System of Alabama (the Plan) financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenues when earned, pursuant to the Plan requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the Governmental Accounting Standards Board (GASB). Under these requirements, the Plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report.

#### **Recent Accounting Pronouncements**

GASB has issued the following pronouncements that may affect current or future financial position, results of operations, cash flows, or financial presentation of the Utilities upon implementation.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Recent Accounting Pronouncements (Continued)**

GASB Statement		Effective Fiscal
Number	GASB Accounting Standard	Year
91	Conduit Debt Obligations	2023
94	Public-Private and Public-Public Partnerships and Availability Payment Arrangements	2023
96	Subscription-Based Information Technology Arrangements	2023
99	Omnibus (GASBs 34, 53, 63, 70, 87, 94, and 96)	Various
100	Accounting Changes and Error Corrections	2024
101	Compensated Absences	2025
102	Certain Risk Disclosures	2025

The Governmental Accounting Standards Board has issued statements that that became effective for the year ending September 30, 2023. These statements are as follows:

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Recent Accounting Pronouncements (Continued)**

This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022.

In May 2020, the GASB issued GASB Statement No. 96, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Assets and liabilities resulting from SBITAs should be recognized and measured using the facts and circumstances that existed at the beginning of the fiscal year in which this Statement is implemented. Governments are permitted, but are not required, to include in the measurement of the subscription asset capitalizable outlays associated with the initial implementation stage and the operation and additional implementation stage incurred prior to the implementation of this Statement.

In May 2022, the GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature. This Statement addresses a variety of topics and includes specific provisions about the following:

- Provides clarification of provisions in Statement 34. The phrase "the reporting government as a whole" found in paragraphs 6 and 13 of GASB34 is replaced with "overall reporting government" to avoid confusion about the reporting of a total column for the financial reporting entity in the financial statements and to clarify that the requirements apply regardless of whether a total column is presented. The changes to Statement 34 are effective upon issuance.
- Provides clarification of the classification and reporting of derivative instruments in Statement 53.
   Terminology updates related to Statement 53 are effective upon issuance. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023.
- Updates terminology in Statement 63 to certain provisions of Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. Terminology updates are effective upon issuance.
- Provides clarification to Statement 87 related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives.
- Statement 94 Clarification of provisions in Statement No. 94, Public-Private and Public-Public
  Partnerships and Availability Payment Arrangements, related to (a) the determination of the publicprivate and public-public partnership (PPP) term and (b) recognition and measurement of installment
  payments and the transfer of the underlying PPP asset. Effective for fiscal years beginning after June 15,
  2022, and all reporting periods thereafter.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Recent Accounting Pronouncements (Continued)**

 Clarification of provisions in Statement 96 Subscription-Based Information Technology Arrangements, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability. This clarification is effective for fiscal years beginning after June 15, 2022.

The Governmental Accounting Standards Board has issued statements that will become effective in future years. These statements are as follows:

In June 2022, GASB issued GASB Statement 100 Changes in accounting principles, changes in accounting estimates, and corrections of errors. Error corrections are defined more clearly in Statement 100. Statement 100 simplifies accounting for reporting entity changes by requiring only the current reporting period's beginning balances to be adjusted, not the earlier period in comparative financial statements. Statement 100 requires that the cumulative amount of adjustments and restatements be displayed on the face of the financial statements between the originally reported balances and the adjusted or restated balances. Statement 100 adds a requirement to disclose which line items in the financial statements were affected by an accounting change or error correction (excluding subtotals and totals) and clarifies that governments should disclose when changes or corrections result in reclassifications within the financial statements despite beginning balances remaining unchanged. Lastly, suppose a government's adjustments or restatements of beginning balances are aggregated when displayed in the financial statements. In that case, the effects on the beginning balances of the individual changes or corrections should be disclosed in a tabular format in the notes. The requirements of this Statement are effective for reporting periods beginning after June 15, 2023.

In June 2022, GASB issued GASB Statement 101. Statement 101 replaces Statement No. 16, Accounting for Compensated Absences. The purpose of GASB Statement 101 is to align recognition and measurement guidance for all types of compensated absences under a unified model, resulting in greater consistency and improved comparability. Under GASB No. 101, there are three general criteria that must be met for recognizing a liability for unused leave. Leave must be for services already rendered, leave must accumulate, and leave must be more likely than not to be used for time-off or paid or settled. This Statement is effective for fiscal years beginning after December 15, 2023.

In December 2023, GASB issued GASB Statement 102 Certain Risk Disclosures. The objective of this Statement is to provide users of government financial statements with essential information about risks related to government's vulnerabilities due to certain concentrations or constraints. This Statement defines a concentration as a lack of diversity related to an aspect of a significant inflow of resources or outflow of resources. A constraint is a limitation imposed on a government by an external party or by formal action of the government's highest level of decision-making authority. Concentrations and constraints may limit a government's ability to acquire resources or control spending. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued.

Year ending September 30, 2023

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### **Recent Accounting Pronouncements (Continued)**

If a government determines that those criteria for disclosure have been met for a concentration or constraint, it should disclose information in notes to financial statements in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact.

The disclosure should include descriptions of the following:

- The concentration or constraint.
- Each event associated with the concentration or constraint that could cause a substantial impact if the event had occurred or had begun to occur prior to the issuance of the financial statements.
- Actions taken by the government prior to the issuance of the financial statements to mitigate the risk.

This Statement is effective for fiscal years beginning after June 15, 2024.

HU is evaluating the requirements of the above statements and the impact on reporting.

#### Note 2 – Cash, Cash Equivalents, and Investments

At September 30, 2023, all cash and cash equivalents of the Utilities are entirely insured or collateralized as provided by the Security for Alabama Funds Enhancement Act ("SAFE") as prescribed in section 41-14A of the code of the state of Alabama with a Qualified Public Fund Depository. Funds held by the banks' trust departments or agents are invested in U.S. governmental securities or are secured by U.S. government securities.

A summary of cash and investments for the year ended September 30, 2023, is shown on the following page.

Money Market Funds - U.S. Treasury Obligations	\$ 8,311,580	\$	8,311,580	\$ -	\$ -	1
Certificate of Deposits	\$ 500,000	\$	500,000	\$ -	\$ -	1
Government Sponsored Enterprises	\$ 63,669,042	\$	21,951,326	\$ 41,717,716	\$ -	1
Total investments measured by fair value level	72.480.622	ć	30.762.906	\$ 41,717,716	¢ .	

Interest Rate risk - is the risk of fixed-maturity investments fluctuating in response to changes in market interest rates. The Utilities manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio in the bond funds to such stated maturities as will assure the availability of cash sufficient to pay, on a timely basis, the interest, and principal of the bonds coming due.

Credit risk - in the Utilities' bond indentures for the outstanding Electric System Revenue Warrants, Gas System Revenue Warrants, and the Water System Revenue Warrants, limit the investments of the various restricted bond funds to the following: (a) securities that are direct obligations of the United States and any securities that are with respect to which the payment of the principal thereof and the interest thereon is unconditionally and irrevocably guaranteed by the United States; (b) custodial receipts evidencing ownership in United States Treasury obligations; and (c) demand or time deposits in domestic banks rated no less than "AA" by Standard & Poor's Ratings Services or "Aa" by Moody's Investors Service.

At September 30, 2023 the Utilities' investments other than the restricted bond funds consisted of Money Market Funds, Certificates of Deposit, and Government Sponsored Enterprise Investments.

Custodial Credit risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Utilities will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Each of the investments listed above are in the possession of an outside party.

GASB Codification Section 3100: Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the codification are described as follows:

Level 1 (L1): Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Utilities has the ability to access.

Year ending September 30, 2023

#### Note 2 – Cash, Cash Equivalents, and Investments (Continued)

Level 2 (L2): Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 (L3): Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value measurements of the Utilities' investments at September 30, 2023 are as follows:

	Level 1	Total
Money Market Funds - U.S. Treasury Obligations	\$ 8,311,580	\$ 8,311,580
Certificate of Deposits	500,000	\$ 500,000
Government Sponsored Enterprises	63,669,042	\$63,669,042
	72,480,622	\$72,480,622

There have been no changes in the methodologies used at September 30, 2023.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Utility believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Concentration of Credit risk - Concentration of credit risk is the risk of loss attributable to the quantity of the Utilities' investment in a single issuer. Investments in single issuers that equal or exceed 5% of total investments have a reportable concentration of credit risk. There are no investments held by a trustee that represent greater than 5% of total investments.

Year ending September 30, 2023

#### Note 3 – Leases

Related to lease agreements where HU Electric System is the lessor, as of September 30, 2023, HU recognized leases receivable of \$137,544,406 with a corresponding deferred inflow of resources of \$135,473,618. HU recognized amortization expense of the deferred inflows of \$6,449,557 and reduced the lease receivable by payments of \$5,335,887.

## **Electric System**

City of Huntsville, Alabama Electric System Revenue and Term Warrants, Series 2017 A - Electric System Revenue Warrants, Series 2017 A, were issued in the original amount of \$59,160,000. The warrants mature serially on December 1 each year and bear interest according to stated maturity dates as disclosed below.

Year ending September 30, 2023

#### Note 5 - Long-Term Debt (Continued)

#### **Electric System (Continued)**

The 2017-A issue contained issuance cost of \$364,297 that are classified as regulatory asset and amortized over 20 years. At September 30, 2023, the unamortized regulatory asset is \$235,809. The 2017-A issue also contained a premium of \$11,204,297 that is being amortized over 20 years. At September 30, 2023, the unamortized premium is \$6,571,978. The 2017-A Warrants are secured by the net revenues from the operations of the Electric System after payment of operating expenses. The 2017-A Warrants were issued to pay for the costs of capital improvements to the Electric System.

Optional Redemption: Those of the Series 2017-A Warrants having a stated maturity on and after December 1, 2027, shall be subject to redemption and payment, at the option of the City, on June 1, 2027, and on any date thereafter, as a whole or in part (but if redeemed in part, only in installments of \$5,000 or any integral multiple thereof with those of the maturities to be redeemed to be selected by the City, and if less than all the Series 2017-A Warrants of a single maturity are to be redeemed, those (or portions thereof) ) of that maturity to be redeemed to be selected by the Trustee by lot), at and for Redemption Price with respects to each such Series 2017-A Warrants (or portion thereof) redeemed equal to the principal amount redeemed, plus accrued interest to the Redemption Date.

City of Huntsville, Alabama Electric System Revenue and Term Warrants, Series 2017 B - Electric System Revenue Warrants, Series 2017 B, were issued in the original amount of \$21,190,000. The warrants mature serially on December 1 each year and bear interest according to stated maturity dates as discussed below.

The 2017-B issue contained issuance cost of \$130,370 that are classified as a regulatory asset and amortized over 15 years. At September 30, 2023, the unamortized regulatory asset is \$76,773. The 2017-B issue also contained a premium of \$3,669,067 that is being amortized over 15 years. At September 30, 2023, the unamortized premium is \$1,444,147.

Optional Redemption: Those of the Series 2017-B Warrants having stated maturity on and after December 1, 2027, shall be subject to redemption and payment, at the option of the City, on June 1, 2027, and on any date thereafter, as a whole or in part (but if redeemed in part, only in installments of \$5,000 or any integral multiple thereof with those of maturities to be redeemed to be selected by the City, and if less than all the Series 2017-B Warrants of a single maturity are to be redeemed, those (or portions thereof of that maturity to be redeemed selected by the Trustee by lot) at and for Redemption Price with respect to each such Series 2017-B Warrants (or portion thereof) redeemed equal to the principal amount redeemed, plus accrued interest to the Redemption Date.

The 2017-B Warrants were issued to advance refund \$23,335,000 of the outstanding Series 2011 Warrants and \$4,140,000 of the outstanding Series 2007 Warrants As a result, the 2011 and 2007 series bonds are considered defeased and the Utilities has removed the liabilities from its accounts. The City deposited the proceeds along with other resources into two separate escrow funds to provide for maturing installments of principal and interest on the old warrants. These funds were subsequently invested by the trustee in U S Treasury Notes with varying maturities. The escrow funds are to provide for all installments due through and including December 1, 2017 (2007 Warrants) and December 1, 2021 (2011 Warrants).

Year ending September 30, 2023

## Note 5 - Long-Term Debt (Continued)

#### **Electric System (Continued)**

As required by GASB Statement No. 23, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt is carried as deferred amount on debt refunding. The 2011 Warrants were refunded in 2017 at a loss of \$710,928. The loss on the bond refinancing is amortized over the life of the 2017 Warrants, which is 15 years. Amortization expense for the year was \$48,305 and accumulated amortization was \$284,230 at September 30, 2023.

The City refunded the 2011 and 2007 Warrants to reduce the annual debt service requirements. The refunding decreased the total debt service payments over the next fifteen years by approximately \$7,350,000 and resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) for the City of approximately \$6,604,690.

#### **Water System**

City of Huntsville, Alabama Water Revenue Warrants, Series 2013 - Water System Revenue Warrants, Series 2013 in the amount of \$180,000 were directly placed with the Alabama Department of Environmental Management (ADEM). During 2023, the Water System made an early payoff of the outstanding principal amount and interest payable related to the Water System Warrants, Series 2013. There was no deferred gain or loss associated with the early payoff of these warrants.

City of Huntsville, Alabama Water Revenue and Term Warrants, Series 2015 - Water System Revenue Warrants, Series 2015, were issued in the original amount of \$92,810,000. The 2015 issue contained issuance cost of \$406,698 that are classified as regulatory asset and amortized over 20 years. The 2015 issue also contained a premium of \$12,610,058 that is being amortized over 20 years.

The Series 2015 Warrants were partially refunded with the issuance of the 2021-A Warrants. The outstanding amount after the refunding was \$15,255,000. At September 30, 2023, there was \$19,089 in debt issuance costs and \$392,263 of premium outstanding to be amortized over the remaining life of the warrant. See additional disclosure below.

Year ending September 30, 2023

## Note 5 – Long-Term Debt (Continued)

#### Water System (Continued)

The warrants mature serially on November 1 and May 1 each year and bear interest according to stated maturity dates as follows:

Year Ending	Series 2015 Warrants			
September 30,	Principal		Interest	
2024	\$ 3,890,000	\$	301,750	
2025	4,090,000		102,250	
Total	7,980,000		404,000	
Current Portion	(3,890,000)		(301,750)	
Noncurrent Portion	\$ 4,090,000	\$	102,250	

The Water System issued the Series 2015 Warrants for the purpose of (i) providing funds to pay the costs of various public capital improvements to the System more particularly including the construction of a new water treatment plant, and (ii) paying the costs of issuing the Series 2015 Warrants.

City of Huntsville, Alabama Water Revenue and Term Warrants, Series 2016 - Water System Revenue Warrants, Series 2016, were issued in the original amount of \$10,425,000 to partially refund the Series 2008 Warrant. The warrants mature serially on November 1 each year and bear interest according to stated maturity dates as follows:

Year Ending	Series 2016 Warrants				
September 30,		Principal		Interest	
2024	\$	505,000	\$	294,200	
2025		525,000		268,450

Noncurrent Portion	\$	6,545,000	\$	1,399,401	

Year ending September 30, 2023

#### Note 5 - Long-Term Debt (Continued)

#### Water System (Continued)

The 2016 issue contained issuance cost of \$171,652 that are classified as regulatory asset and amortized over 20 years. At September 30, 2023, the unamortized regulatory asset is \$94,409. The 2016 issue also contained a premium of \$1,090,205 that is being amortized over 20 years. At September 30, 2023, the unamortized premium is \$448,665.

Optional Redemption: Those of the Series 2016 Warrants having stated maturities on November 1, 2027, and thereafter, shall be subject to redemption and payment prior to maturity, at the option of the Issuer, as a whole or in part, on November 1, 2026, and on any date thereafter (and if in part, of such maturities as shall be selected by the Issuer, and if less than all the Series 2016 Warrants of a single maturity are to be redeemed, those to be redeemed to be selected by the Trustee by lot), at and for a redemption price equal to the principal amount so redeemed plus accrued interest thereon to the rate fixed for redemption.

The 2008 Warrants were refunded in 2016 at a loss of \$703,877. The loss on the bond refinancing is amortized over the remaining life of the 2016 Warrants, which is 15 years. Amortization expense for the year was \$48,266 and accumulated amortization was \$309,706 at September 30, 2023.

City of Huntsville, Alabama Water Revenue and Term Warrants, Series 2019 – Water System Revenue Warrants, Series 2019, were issued in the original amount of \$11,000,000 to expand HU's current water program. The warrants mature serially on November 1 each year and bear interest according to stated maturity dates. The Series 2019 Warrants were fully refunded with the issuance of the 2021-A Warrants. See additional disclosure below.

City of Huntsville, Alabama Water Revenue and Term Warrants, Series 2021-A — On August 3, 2021, Huntsville Utilities issued \$7,010,000 of Series 2021-A General Obligation Warrants. HU used these warrants to (i) refund, on a current basis, the Series 2019 Warrant, and (ii) pay the costs of issuing the Series 2021-A Warrants. As a result, the 2019 series bonds are considered defeased and the Utilities has removed the liability from its accounts.

Warrants mature serially on November 1 and May 1 each year and bear interest according to stated maturity dates as follows:

Year Ending	Series 2021-A Warrants				
September 30,	Pr	incipal		nterest	
2024	\$	880,000	\$	277,250

2028	5,770,000	917,366	
2029	5,840,000	844,081	
2030	5,925,000	759,418	
2031	6,025,000	664,391	
2032	6,125,000	563,229	
2033	6,230,000	454,157	
2034	6,350,000	335,246	
2035	6,475,000	207,606	
2036	6,615,000	70,781	
Total	69,580,000	8,940,142	
Current Portion	(1,430,000)	(1,060,336)	
Noncurrent Portion	\$68,150,000	\$ 7,879,806	

The 2021-B issue contained issuance cost of \$406,980 that are classified as a regulatory asset and amortized over 171 months. At September 30, 2023, the unamortized regulatory asset is \$345,100. The 2021-B issue did not contain a premium.

Year ending September 30, 2023

#### Note 5 - Long-Term Debt (Continued)

#### Water System (Continued)

The 2021-B Warrants were issued to advance refund \$60,815,000 of the outstanding Series 2015 Warrants. As a result, the 2015 series bond is considered partially defeased and the Utilities has reduced the liability on its accounts. The Utilities deposited the proceeds, along with other resources, into a separate escrow fund to provide for maturing installments of principal and interest on the old warrants. These funds were subsequently invested by the trustee in U.S. Treasury notes with varying maturities. The escrow funds are to provide for all installments due through and including November 1, 2024 (2015 Warrants).

A portion of the 2015 Warrants were refunded in 2021 at a loss of \$4,611,034. The loss on the bond refinancing is amortized over the remaining life of the 2015 Warrants, which is 14 years. Amortization expense for the year was \$323,581 and accumulated amortization was \$701,092 at September 30, 2023.

The Utilities refunded the 2015 Warrants to reduce the annual debt service requirements. The refunding decreased the total debt service payments over the next 15 years by approximately \$15,108,000 and resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) for the utilities of approximately \$14,260,000.

Year ending September 30, 2023

City of Huntsville, Alabama Subordinated Water Revenue Warrant, Series 2021A-DWSRF-DL — On February 15, 2021, Huntsville Utilities issued \$10,615,000 of Series 2021A-DWSRF-DL Warrants. HU will use these warrants to make water system improvements. Principal installments are due on February 15 each year and bear interest according to stated maturity dates as follows:

#### Note 6 – Employee Benefits

The annual leave policy allows each employee to accumulate up to 35 days of annual leave. The Utilities follows the practice of accruing the dollar amount of the leave accrued per each employee on a monthly basis. Actual leave time taken is charged against this account. The sick leave policy provides that at the time of retirement, each employee will be paid 25% of the accumulated sick leave based on the employee's current salary. The Utilities follow the practice of accruing 25% of accumulated sick leave for the employees at year end who are vested in their sick leave. Accrued annual leave and sick leave at September 30, 2023 are as follows:

	Accr	ued Annual Leave	Accru	ed Sick Leave
Electric System	\$ 3,257,541		\$	1,177,482

Note 7 - Defined Benefit Pension Plan and Description

#### **Plan Description**

The Employees' Retirement System of Alabama (ERS), an agent multiple-employer public employee retirement plan, was established as of October 1, 1945, under the provisions of Act 515 of the Legislature of 1945 for the purpose of providing retirement allowances and other specified benefits for state employees, State Police, and on an elective basis, to all cities, counties, towns, and quasi-public organizations. The responsibility for the general administration and operations of ERS is vested in its Board of Control. The ERS Board of Control consists of 15 trustees. Effective October 1, 2021, Act 390 of the Legislature of 2021 will create two additional representatives and change the composure of representatives within the ERS Board of Control. The Plan is administered by the Retirements Systems of Alabama (RSA). Title 36-Chapter 27 of the Code of Alabama grants the authority to establish and amend the benefit terms to the ERS Board of Control. The Plan issues a publicly available financial report that can be obtained at www.rsa-al.gov.

The ERS Board of Control consists of 15 trustees as follows:

- 1) The Governor, ex officio.
- 2) The State Treasurer, ex officio.
- 3) The State Personnel Director, ex officio.
- 4) The State Director of Finance, ex officio.
- 5) Three vested members of ERS appointed by the Governor for a term of four years, no two of whom are from the same department of state government nor from any department of which an ex officio trustee is the head.
- 6) Eight members of ERS who are elected by members from the same category of ERS for a term of four years as follows:

Year ending September 30, 2023

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

#### Plan Description (Continued)

- a. Two retired members with one from the ranks of retired state employees and one from the ranks of retired employees of a city, county, or a public agency each of whom is an active beneficiary of ERS.
- b. Two vested active state employees.
- c. One vested active employee of a participating municipality of city in ERS pursuant to § 36-27-6.
- d. One vested active employee of a participating county in ERS pursuant to § 36-27-6.
- e. One vested active employee or retiree of a participating employer in ERS pursuant to § 36-27-6.
- f. One vested active employee of a participating employer other than a municipality, city or county in ERS pursuant to § 36-27-6.

#### **Benefits Provided**

State law establishes retirement benefits as well as death and disability benefits and any ad hoc increase in postretirement benefits for the ERS. Benefits for ERS members vest after 10 years of creditable service. State employees who retire after age 60 (52 for State Police) with 10 years or more of creditable service or with 25 years of service (regardless of age) are entitled to an annual retirement benefit, payable monthly for life. Local employees who retire after age 60 with 10 years or more of creditable service or with 25 or 30 years of service (regardless of age), depending on the particular entity's election, are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yield the highest monthly benefit. Under the formula method, members of the ERS (except State Police) are allowed 2.0125% of their average final compensation (highest 3 of the last 10 years) for each year of service. State Police are allowed 2.875% for each year of State Police service in computing the formula method.

Act 377 of the Legislature of 2012 established a new tier of benefits (Tier 2) for members hired on or after January 1, 2013. Tier 2 ERS members are eligible for retirement after age 62 (56 for State Police) with 10 years or more of creditable service and are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, Tier 2 members of the ERS (except State Police) are allowed 1.65% of their average final compensation (highest 5 of the last 10 years) for each year of service up to 80% of their average final compensation. State Police are allowed 2.375% for each year of State Police service in computing the formula method.

Members are eligible for disability retirement if they have 10 years of credible service, are currently in-service, and determined by the RSA Medical Board to be permanently incapacitated from further performance of duty. Preretirement death benefits equal to the annual earnable compensation of the member as reported to the Plan for the preceding year ending September 30 are paid to the beneficiary.

Act 132 of the Legislature of 2019 allowed employers who participate in the ERS pursuant to *Code of Alabama* 1975, Section 36-27-6 to provide Tier 1 retirement benefits to their Tier 2 members. Tier 2 members of employers adopting Act 2019-132 will contribute 7.5% of earnable compensation for regular employees and 8.5% for firefighters and law enforcement officers. A total of 590 employers adopted Act 2019-132.

Year ending September 30, 2023

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

#### **Benefits Provided (Continued)**

Act 316 of the Legislature allows employees at the time of retirement to receive a partial lump sum (PLOP) distribution as a single payment not to exceed the sum of 24 months of the maximum monthly retirement allowance the member could receive. This option may be selected in addition to the election of another retirement allowance option at a reduced amount based upon the amount of partial lump sum distribution selected.

The ERS serves approximately 886 local participating employers. The ERS membership includes approximately 108,890 participants. As of September 30, 2022, membership consisted of:

	ERS	Electric	Gas	Water
Retirees and beneficiaries currently receiving benefits	30,598	129	196	64
Vested Inactive Members	2,286	3	12	2
Non-vested Inactive Members	18,689	9	38	6
Active Members	57,278	198	424	134
Post-DROP participants who are still in active service	39	_	-	-
Total	108,890	339	670	206

#### **Contributions**

Covered members of the ERS contributed 5% of earnable compensation to the ERS as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, covered members of the ERS were required by statute to contribute 7.25% of earnable compensation. Effective October 1, 2012, covered members of the ERS are required by statute to contribute 7.50% of earnable compensation. Certified law enforcement, correctional officers, and firefighters of the ERS contributed 6% of earnable compensation as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 8.25% of earnable compensation. Effective October 1, 2012, certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 8.50% of earnable compensation. State Police of the ERS contribute 10% of earnable compensation.

Employers participating in the ERS pursuant to *Code of Alabama 1975, Section 36-27-6* were not required by statute to increase covered member contribution rates but were provided the opportunity to do so through Act 2011-676. By adopting Act 2011-676, Tier 1 regular members contribution rates increased from 5% to 7.5% of earnable compensation and Tier 1 certified law enforcement, correctional officers', and firefighters' member contributions rates increased from 6% to 8.5% of earnable compensation.

Tier 2 covered members of the ERS contribute 7.5% of earnable compensation to the ERS as required by statute. Tier 2 certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 7% of earnable compensation. Tier 2 State Police members of the ERS contribute 10% of earnable compensation. These contributions rates are the same for Tier 2 covered members of ERS local Participating employers.

Year ending September 30, 2023

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

#### **Contributions (Continued)**

The ERS establishes rates based upon an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability, the preretirement death benefit and administrative expenses of the Plan. For the year ended September 30, 2023, Huntsville Utilities active Tier 1 employee contribution rate was 5% and Tier 2 was 7.5% of covered employee payroll. Huntsville Utilities contractually required contribution rate for the year ended September 30, 2023 was as follows:

	Electric Systems 2023		Natural Gas	Systems	Water Systems		
			202	3	2023		
	Tier 1	Tier 2	Tier 1	Tier 2	Tier 1	Tier 2	
Normal Cost	1.49%	-0.02%	1.89%	0.69%	1.60%	-0.28%	
Accrue Liability	18.94%	18.94%	9.24%	9.24%	15.35%	15.35%	
Preretirement Death Benefit	0.02%	0.02%	0.02%	0.02%	0.02%	0.02%	
Administrative Expense	0.35%	0.35%	0.35%	0.35%	0.35%	0.35%	
	20.80%	19.29%	11.50%	10.30%	17.32%	15.44%	

These required contribution rates are based upon the actuarial valuation dated September 30, 2021, a percent of annual pensionable payroll, and actuarially determined as an amount that, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, with an addition amount to finance any unfunded accrued liability. Total employer contributions to the pension plan for the year September 30, 2023 from the utilities were:

	Ei	mployer
	Cor	ntributions
Electric	\$	3,703,669
Gas		3,720,382
Water		1,690,572

Year ending September 30, 2023

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

## **Net Pension Liability**

The Utilities net pension liability was measured as of September 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2021, rolled forward to September 30, 2022 using standard roll-forward techniques as shown in the following table:

	 Expected		ctual Before an Changes	Actual After Plan Changes	
Electric System					
a) Total Pension Liability as of September 30, 2021	\$ 78,453,733	\$	78,327,763	\$	78,380,887

#### **Actuarial Assumptions**

The total pension liability as of September 30, 2022, actuarial valuation was based on the annual actuarial funding valuation report prepared as of September 30, 2021. The key actuarial assumptions are summarized below:

Inflation 2.50%

Salary Increase 3.25% - 6.00%

Investment rate of return\* 7.45%
\*Net of pension plan investment expenses

Mortality rates for ERS were based on the Pub-2010 Below-Median Tables projected generationally using the MP-2021 scale, which is adjusted by 66-2/3% beginning with year 2019.

Year ending September 30, 2023

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

#### **Actuarial Assumptions (Continued)**

The actuarial assumptions used in the September 30, 2021, valuation were based on the results of an actuarial experience study for the period October 1, 2015 – September 30, 2020.

The Board of Control accepted and approved these changes.

The long-term expected rate of return on pension plan investments were determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of geometric real rates of return for each major asset class are as follows:

		Long-Term
	Target	<b>Expected Rate</b>
	Allocation	of Return*
Fixed Income	15.0%	2.80%
U.S. Large Stocks	32.0%	8.00%
U.S. Mid Stocks	9.0%	10.00%
U.S. Small Stocks	4.0%	11.00%
International Developed Market Stocks	12.0%	9.50%
International Emerging Market Stocks	3.0%	11.00%
Alternatives	10.0%	9.00%
Real Estate	10.0%	6.50%
Cash equivalents	5.0%	1.50%
Total	100.0%	

<sup>\*</sup> Includes assumed rate of inflation of 2.00.%

#### **Discount Rate**

The discount rate used to measure the total pension liability was the long-term rate of return, 7.45%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made in accordance with the funding policy adopted by the ERS Board of Control. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payment of current plan member. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Year ending September 30, 2023

## Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following table presents the City's net pension liability calculated using the discount rate of 7.45%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.45%) or 1-percentage-point higher (8.45%) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	6.45%	7.45%	8.45%
Electric	\$53,047,747	\$ 43,491,561	\$35,483,308

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

#### **Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Annual Comprehensive Financial Report for the fiscal year ended September 30, 2022. The supporting actuarial information is included in the GASB Statement No. 68 Report for the ERS prepared as of September 30, 2022. The auditor's report dated June 7, 2023, on the Schedule of Changes in Fiduciary Net Position by Employer and accompanying notes is also available. The additional financials and actuarial information is available at www.rsa-al.gov/index.php/employers/financial-reports/gasb-68-reports/.

#### Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2023, the City recognized the following pension expense.

	Pen	Pension Expense				
Electric System	\$	4,892,742				
Gas System	\$	7,190,404				
Water System	\$	2,684,382				

At September 30, 2023, the Utilities reported deferred outflows of resources and deferred inflows of resources related to pensions of the following sources:

Year ending September 30, 2023

## Note 7 – Defined Benefit Pension Plan and Description (Continued)

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Amounts reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources to pensions will be recognized in pension expense as follows:

Year Ending September 30,	Electric System	Gas System	Water System
	 ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	-,

#### Note 8 – Property and Rights Held Under Deferred Compensation Plan

Employees of the Utilities may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments). The deferred compensation plan is administered by an unrelated financial institution. Under the terms of an Internal Revenue Code Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are the property of the Utilities subject only to the claims of the Utilities general creditors. In addition, the participants in the Plan have rights equal to those of the general creditors of the Utilities, and each participant's rights are equal to his or her share of their fair market value of the Plan assets. The Utilities believe that it is unlikely that Plan assets will be needed to satisfy claims of general creditors that might arise. These assets and related liabilities are not reflected on the books and records of the Utilities.

Year ending September 30, 2023

#### Note 9 - Post-Employment Benefits Other Than Pension Benefits

#### **General Information about the OPEB Plan**

<u>Basis of Accounting</u> – The financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the Utilities has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

<u>Methods Used to Value Investments</u> – Plan assets have been segregated and restricted in an irrevocable trust fund with a local custodian bank. Plan assets are dedicated to providing retiree benefits and are protected from creditors. Investments are reported at fair value, which is determined by the trustee based on most recent bid and asked prices.

<u>Plan Description and Benefits Provided</u> – The Utilities provides certain health care and life insurance benefits to its retired employees, as a part of a single-employer defined benefit plan. Benefits include healthcare and dental care for eligible retirees and for retiree spouses to age 65 through the Utilities' group health insurance plan, which covers both active and retired members. The Utilities self-funds its health and dental benefit plan. For retirees over age 65, the Utilities provides a supplemental Medicare policy. Life insurance is provided for retirees meeting eligibility requirements. No separate stand-alone OPEB plan financial statements are publicly available. However, information on funding progress, contributions, and other elements are included in these financial statements.

<u>Employees Covered by Benefit Terms</u> – The Utilities provides certain post-employment health and life insurance benefits to all employees who retire from the Utilities under the provisions of the qualified plan and a minimum of 20 years of service. At September 30, 2023, the following employees were covered by the benefit terms:

Inactive members or beneficiaries currently receiving benefits	437
Active members	724
	_
Total membership	1161

<u>Contributions</u> – The benefits are not provided under any statutory or contractual authority, but rather by administrative decision. For 2023, the Utilities contributed \$4,252,573.

#### **Net OPEB Liability**

The Utilities' net OPEB liability was measured as of September 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of October 1, 2022.

Year ending September 30, 2023

#### Note 9 – Post-Employment Benefits Other Than Pension Benefits (Continued)

#### **Net OPEB Liability (Continued)**

<u>Actuarial Assumptions</u> – The total OPEB liability in the October 1, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50 %
Real wage growth	0.25 %
Wage inflation	2.75 %
Salary increases, including wage inflation	3.25 % - 6.00 %
Long-term Investment Rate of Return, net of OPEB	
plan investment expense, including price inflation	5.00 %
Municipal Bond Index Rate	
Prior Measurement Date	2.26 %
Measurement Date	4.02 %
Single Equivalent Interest Rate, net of OPEB plan	
investment expense, including price inflation	
Prior Measurement Date	5.00 %
Measurement Date	5.00 %
Health Care Cost Trends	
Pre-Medicare Medical and Prescription Drug	7.00 % for 2020 decreasing to an ultimate
	rate of 4.50 % by 2030
Medicare Medical and Prescription Drug	5.25 % for 2020 decreasing to an ultimate
	rate of 4.50 % by 2023

Mortality rates were based on the Pub-2010 Public Mortality Plans Mortality Tables:

- Deaths before retirement: Pub-2010 Employee base rates are projected from 2010 using generational improvements with the adjusted Scale MP-2020. Rates are set back 1 year for all males and females.
- Deaths after retirement: Pub-2010 Healthy Annuitant base rates are projected from 2010 using generational improvements with the adjusted Scale MP-2020. Rates are set forward 2 years for non-FLC males and females and set forward 1 year for FLC males. Rates are adjusted by 90% for males prior to age 65, 96% for males on and after age 65, and 96% for females for all ages.
- Deaths after retirement (Beneficiary): Pub-2010 Contingent Survivors base rates are projected from 2010
  using generational improvements with the adjusted Scale MP-2020. Rates are set forward 2 years for all
  males and females.
- Deaths after retirement (Disabled): Pub-2010 Disabled base rates are projected from 2010 using generational improvements with the adjusted Scale MP-2020. Rates are set forward 7 years for all males and set forward 3 years for non-FLC females.

<u>Discount Rate</u> – The discount rate used to measure the TOL as of the Measurement Date was 5.00%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 74. The projection's basis was an actuarial valuation performed as of October 1, 2022. In addition to the actuarial methods and

Year ending September 30, 2023

## Note 9 – Post-Employment Benefits Other Than Pension Benefits (Continued)

#### **Net OPEB Liability (Continued)**

assumptions of the October 1, 2022, actuarial valuation, the following actuarial methods and assumptions were used in the projection of cash flows:

- Total payroll for the initial projection year consists of the payroll of the active membership present on the
  valuation date. In subsequent projection years, total payroll was assumed to increase annually using the
  payroll growth assumptions.
- Active employees do not explicitly contribute to the Plan.
- In all years, the employer is assumed to contribute the lesser of the benefits due to plan members and the average of the last 5 years of contributions to the Plan through deposits to the Trust and direct payment of benefits to plan members as the benefits come due. The employer is assumed to have the ability and willingness to make contributions to the Trust and benefit payments from its own resources for all periods in the projection.
- Projected assets do not include employer contributions that fund the estimated service costs of future employees.
- Cash flows occur mid-year.

Based on these assumptions, the Plan's FNP was projected to not be depleted.

The FNP projections are based upon the Plan's financial status on the Measurement Date, the indicated set of methods and assumptions, and the requirements of GASB 74. As such, the FNP projections are not reflective of the cash flows and asset accumulations that would occur on an ongoing plan basis, reflecting the impact of future members. Therefore, the results of this test do not necessarily indicate whether or not the fund will actually run out of money, the financial condition of the Plan, or the Plan's ability to make benefit payments in future years.

Total	\$	(941,211) \$	(397,259) \$	(388,815)

#### Note 10 - City of Huntsville - Payment in Lieu of Taxes

Because the Utilities are component units of the City of Huntsville, they are not subject to income taxes, either at the federal or state level. The Electric System, however, does pay to the City of Huntsville a tax equivalent, which is determined by applying the current property tax rates to net plant in service at the end of the preceding year. The Natural Gas and Water Systems each pay a tax equivalent, which is a predetermined (6%) percentage of sales revenue. The tax equivalent for the year ended September 30, 2023, is as follows:

	 2023
Electric System	\$ 17,733,622
Natural Gas System	3,579,440
Water System	3,008,795

#### Note 11 - Gas Purchase Commitments

The Gas System has entered into three prepay purchase contracts with Tennessee Energy Acquisition Corporation to procure natural gas supply. Under the first contract the Gas System has committed to purchase 1,572,500 MMBtu per year through December 2026. Under the second contract the Gas System has committed to purchase 229,800 MMBtu per year through December 2026, and volumes increase to 1,152,100 MMBtu per year through September 2049. Under the third contract, the Gas System has committed to purchase 1,091,750 MMBtu per year through March 2052.

The Gas System has entered into one prepay purchase contract with Southeast Gas Supply to procure natural gas supply. Under this contract, the Gas System has committed to purchase 219,958 MMBtu per year through April 2049.

The Gas System has entered into two purchase contracts with Southeast Energy Authority to procure natural gas supply. Under the first contract, the Gas System has committed to purchase 1,241,419 MMBtu per year through May 2029, and the under the second contract 768,715 MMBtu per year starting January 2026 through April 2030.

The Gas System has also purchased a financial hedge contract with J Aron Goldman Sachs at a fixed price per year with volumes of 2,030,000 MMBtu for fiscal years 2023, 2024, and 2025.

Year ending September 30, 2023

#### Note 12 - Electric Purchase Commitments

Under its wholesale power agreement, the Electric System is committed to purchase its electric power and energy requirement from the Tennessee Valley Authority. The rates for such purchases are subject to review periodically.

#### Note 13 - Risk Management and Insurance Agreement

The Utilities are exposed to various risks such as torts, theft, damage, and destruction of assets; errors and omissions; and natural disasters and injuries to employees.

Potential losses from these risks are mitigated with a combination of commercial and self-insurance. Commercial insurance coverage is combined for the Electric, Water, and Gas Utilities with the expense prorated to each department on a predetermined percentage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. No reductions in insurance coverage have occurred since the prior year.

## Coverage is provided as follows:

Blanket real and personal property	
Real property	\$ 350,000,000
Earthquake	10,000,000
Flood	10,000,000
Blanket crime	1,000,000
Kidnap and Ransom/Active Shooter	1,000,000
Cyber	3,000,000
Automobile liability	1,000,000
Public officials and employment liability	
Electric	5,000,000
Gas and Water	5,000,000
Travel Accident Policy	
Accidental Death and Dismemberment, Coma, Paralysis	1,000,000
Bomb Scare, Bomb Search, or Bomb Explosion	1,000,000
Workers' compensation	
Bodily injury (accident and disease)	Statutory
Excess coverage per occurrence (SIR)	1,000,000
Comprehensive general liability	Self-insured

Year ending September 30, 2023

#### Note 13 – Risk Management and Insurance Agreement (Continued)

Employee and retiree group health coverage is provided under externally administered self-insurance plans. Liabilities for self-insured losses, including estimates of losses incurred but not reported, are estimated through the application of historical experience and current trends. The year-end accrual is based on paid claims by the incurred date. The following table sets out the changes in the claims related to employee group health coverage for 2023:

	Electric	Electric Gas	
	System	System	System
Beginning balance	\$ 560,000	\$ 160,000	\$ 280,000
Changes in estimate	1,000	60,000	39,000
Ending balance	\$ 561,000	\$ 220,000	\$ 319,000

Note 14 - Contingencies and Commitments

#### **Contingencies**

During the ordinary course of its operations, the Utilities are parties to various claims, legal actions, and complaints, the ultimate effect of such litigation cannot be ascertained at this time. In the opinion of management, in consultation with counsel, the liabilities which may arise from such actions are not expected to have a materially adverse effect the financial condition of the Utilities or results of activities.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, or expenditures from current or prior years which may be disallowed by the grantor cannot be determined at this time although the Utilities expects such amounts not recorded, if any, to be immaterial.

#### **Construction Commitment**

The Utilities has six outstanding construction contracts at September 30, 2023. One construction contract with C B & I Group, Inc. for rehabilitation of the Greenbrier MTM Water Storage Tank, one with John Plott Company for Research Park Blvd Water Main Transmission Project, one with T J Construction for the Martin Road Gas Main Relocation Project that is ALDOT reimbursable, one for Velox LLC for Fiber Construction, one for Substation Enterprises for substation steel packages for Big Cove and Walker Lane Substations and one construction contract with Hogan's Mechanical for the renovation of the Fiber Operations Building. The total contract for each vendor is as follows:

Year ending September 30, 2023

## Note 14 - Contingencies and Commitments (Continued)

#### **Construction Commitment (Continued)**

<b>Construction Contracts</b>	<u> </u>	O Value	<b>Amount Paid in FY23</b>			Amount Pending
C B & I GROUP INC	\$	7,917,700	\$	2,868,791	\$	5,048,909
JOHN PLOTT COMPANY	\$	4,955,492	\$	2,002,516	\$	2,952,976
T J CONSTRUCTION I	\$	2,211,793	\$	1,743,477	\$	468,316
VELOX LLC	\$	2,000,000	\$	926,849	\$	1,073,151
SUBSTATION ENTERPR	\$	1,905,084	\$	-	\$	1,905,084
HOGAN'S MECHANICAL	\$	1,580,495	\$	338,443	\$	1,242,052

#### Note 15 – Customer Deposits

During 2023, the Utilities had the following Customer Deposits:

		Accrued	
	Deposits	Interest	Total
Electric System	\$46,001,815	\$ 919,833	\$ 46,921,648
Gas System	4,172,722	83,574	4,256,296
Water Water	5,860,134	115,114	5,975,248
Total	\$56,034,671	\$ 1,118,521	\$ 57,153,192

During 2023, the Utilities had the following Customer Deposit transactions:

	Beg Balance	New Deposits		Returned Deposits		Deposit Allocations		<b>Ending Balance</b>	
Electric System	\$43,821,414	\$	9,953,770	\$	(7,407,527)	\$	(365,842)	\$	46,001,815
Gas System	4,115,790		691,886		(668,745)		33,791		4,172,722
Water Water	5,420,156		692,563		(943,126)		690,541		5,860,134
Total	\$53,357,360	\$	11,338,219	\$	(9,019,398)	\$	358,490	\$	56,034,671

As of September 30, 2023, the Utilities' deposits were entirely covered by the FDIC or by the SAFE Program.

<u>Custodial credit risk</u> – Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificates of deposits are defined as public deposits. The financial institutions in which the Utilities places its deposits are certified as "qualified public depositories," as required under the SAFE Program.

Year ending September 30, 2023

## Note 16 – Subscription-Based Information Technology Arrangements (SBITAs)

GASB No. 96 defines a SBITA as a contract that conveys control of the right to use another party's IT software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. HU evaluated all existing contracts that could potentially be classified as SBITAs. HU has recognized right-to-use subscription assets, intangible assets, as well as corresponding subscription liabilities for the following contracts:

#### Notes to Schedule

GASB Codification P20 requires information for 10 years. However, until a full 10-year trend is compiled, the Electric System is presenting information for only the years for which information is available.

Covered payroll for 2018-2021 has been restated to properly present personnel assigned to all three utility systems.

<sup>\*</sup> The amount of employer contributions related to normal and accrued liability components of employer rate net of any refunds or service payments. The Schedule of Employer Pension Contributions is based on the 12-month period of the underlying financial statements.

Actuarially determined contribution rates are calculated as of September 30, three years prior to the end of the fiscal year in which contributions are reported. Contributions for fiscal year 2023 were based on the September 30, 2020, actuarial valuation.

Methods and assumptions used to determine contribution rates for the period October 1, 2022, to September 30, 2023\*:

Actuarial cost method Entry Age

Amortization method Level percent closed

Remaining amortization period 25.3 years

Asset valuation method Five years smoothed market

Inflation 2.75%

Salary increases 3.25 – 5.00%, including inflation

Investment rate of return 7.70%, net of pension plan investment expense, including inflation

#### **Note to Schedule**

GASB Codification P20 requires information for 10 years. However, until a full 10-year trend is compiled, the Electric System is presenting information for only the years for which information is available.

Town of Triana	\$ 312,719	153,836000	

<sup>(1)</sup> Represents water sales to Redstone Arsenal.

#### D. Number and Type of Customers

The number and type of customers served by the Water System has been as follows:

Customer Type	Number
Residential	94,762
Commercial	11,278
Industrial	55
Governmental	18
Other	12
Total	106,125

#### E. Additional Operating Data

Number of Water System Customers	106,125
Sales (Gallons)	13,329 million
Sales (Dollars)	\$49.8 million

Unaudited Information for Year Ended September 30, 2023

#### F. Debt Service Requirements and Coverage for Water Revenue Warrants.

#### **Debt Service Requirements**

#### C. Customers and Sales

i. The number of customers by class and the corresponding aggregate amount of revenue and kilowatt hours of electricity sold as of and for the indicated fiscal year ended September 30, 2023, have been as follows:

Customers 191,235	Residential kWh Sold 2,499,582,619	<b>Revenue</b> \$ 298,774,778	Customers 20,324		<b>50kWh and</b> <b>Under Sold</b> 366,545,916	<b>Revenue</b> \$ 44,966,266
Customers 3,126	Over 50 kWh Sold 2,174,160,036	<b>Revenue</b> \$ 225,588,220	Customers 746	L	Other Outdoor ighting kWh Sold 39,692,285	<b>Revenue</b> \$ 5,960,921
	Total Customers 215,431	<b>Total k\</b> <b>Sold</b> 5,079,980		\$	<b>Total Revenue</b> 575,290,186	

ii. The number of customers by class and the corresponding aggregate amount of revenue and kilowatt hours of electricity sold, expressed as a percentage for the indicated fiscal year ended September 30, 2023, have been as follows:

Percentage of Customers	
Residential	88.8%
Commercial	10.9
Other	0.3
Total	100.0
Percentage of kWh Sold	
Residential	49.2%
Commercial	50.0
Other	0.8
Total	100.0
Percentage of Revenue	
Residential	51.9%
Commercial	47.0
Other	1.0
Total	100.0

# **D.** Major Customers

The following chart sets forth the City's top ten customers, with associated sales revenues, distribution margin, percentage of distribution revenue to sales revenue, sales revenue as a percentage of total revenue, total kWh used by each customer, and the percentage of kWh used by each customer to total kWh used from all classes.

Customer Name	Tota Custon Reven	ner	Distribution Sales Revenue	Distribution Revenue as % of Sales Revenue	Customer Revenue as % of Total HU Sales Revenue	Customer kWh	Customer kWh as % of Total HU kWh
Huntsville Hospital	\$ 10,77	5,153 \$	10,775,153	1.9%	1.9%	113,187,121	2.2%
Huntsville Schools	\$ 6,592	2,564 \$	6,592,5643	1.1%	1.1%	58,501,661	1.2%
TMMAL	\$ 6,419	9,795 \$	6,419,795	1.1%	1.1%	787,861,500	1.7%
Huntsville Utilities	\$ 5,180	0,829 \$	5,180,829	0.9%	0.9%	49,389,839	1.0%
City of Huntsville Engineering	\$ 4,108	3,152 \$	4,108,152	0.7%	0.7%	26,406,235	0.5%

	Dollar Amount	
Average Revenue per Kilowatt Hour - Residential	\$	0.12
Average Revenue per Kilowatt Hour – Commercial 1,000 kW or Less	\$	0.12
Average Revenue per Kilowatt Hour – Industrial greater than 1,000 kW	\$	0.10

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Directors City of Huntsville Electric, Natural Gas, and Water Systems Huntsville, Alabama

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the City of Huntsville Electric, Natural Gas, and Water Systems (the Utilities), component units of the City of Huntsville, Alabama as of and for the year ended September 30, 2023, the related notes to the financial statements, which collectively comprise the Utilities basic financial statements, and have issued our report thereon dated April 18, 2024.

#### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Utilities internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Utilities internal control. Accordingly, we do not express an opinion on the effectiveness of the Utilities internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Utilities financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Utilities internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
