## **NEW HOMES PROGRAM**

Verifies new residential construction for compliance to State of Alabama Energy Code and to the level of Energy Right Platinum Certification.

## **HOME EVALUATION SURVEY PROGRAM**

(Scheduled to begin this October)

A comprehensive home efficiency checkup and report that will include up to \$350 in rebate opportunities. A \$50 fee will be required.

## **EFFICIENCY PROGRAM**

Information, a contractor list and a free inspection for homeowners who are replacing heating and cooling equipment.

## **GREEN POWER PROVIDERS**

Customer generation connected to the grid and sold back to TVA for a premium.

### **Natural Gas Water Heating**

Heating water with natural gas [from Huntsville Utilities](#) can be accomplished for about half the cost of electricity. If you are a Huntsville natural gas customer who does not currently heat water with natural gas, a rebate is available that will offset some of the conversion costs from electricity. For more information e-mail:

### **Our Water Supply**

The cost of water from Huntsville Utilities is relatively low but that should not cause us to see it as a less valuable resource.

Homeowners can check a leak detector located inside the water meter to make sure their water is not being wasted. Please also help Huntsville Utilities by reporting water leaks that occur near the street or water meter.

To learn about the leak detector, e-mail
